Art Unit: 2155

Allowable Subject Matter

1. Claims 1-24 are allowed.

2. The following is an examiner's statement of reasons for allowance: Based on applicants arguments found in the appeal brief filed 04/22/05 and the discussion found in the BPAI decision (9/13/06), the primary reasons for allowance are the inclusion of the following limitations in each of the independent claims directed toward a system (and corresponding method) for facilitating delegated processing of at least portions of requests associated with request messages received via a communicatively couple network link:

"at least on bus structure communicatively linking the set of specialized handler processors to the intelligent switch and request reassignment tracking logic enabling the intelligent switch to route messages associated with at least the portion of the reassigned request between the identified handler processor and the network interface, thereby facilitating completing at least the portion of the new request through communications between the identified handler of specialized handler processor and the network interface via the intelligent switch without intervention by the default handler processor" (from claim 1) and "executing, by the identified handler processor, at least the portion of the new request, wherein during the executing step the identified handler processor communicates with the network interface via the intelligent switch; thereby

Art Unit: 2155

bypassing the default handler processor while executing at least the portion of the new request" (From claim 13).

This subject matter is not found in the prior art nor is it obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Lazaro whose telephone number is 571-272-3986. The examiner can normally be reached on 8:30-5:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Saleh Najjar can be reached on 571-272-4006. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
